

THIS ELITE CBD & CBG ORGANIC PRODUCTS
HAVE BEEN LOVINGLY CRAFTED USING THE FINEST
HEMP FLOWERS SOURCED FROM FARMS IN ANDALUCÍA

Belief in the leaf

At **TLE** we represent excellence in the production and distribution of premium hemp related products, maximising the potential benefits of this sacred plant.

Crafted with love and care and using our secret formula, our elite products contain the finest ingredients sourced from local organic sustainable farms.

Our organic hemp ranges are produced in rural Andalucia where the **TLE** experts fuse traditional cultivation methods and the latest scientific processes to guarantee the preservation and integrity of the magical natural properties of the plant.

In order to retain the intrinsic natural benefits, the **TLE** team focus on our product retaining their full spectrum composition. We optimise specific cannabinoids that can enhance our full spectrum products to improve our clients overall wellbeing.

Cannabinoids have fantastic healing properties for a wide range of physical and mental health conditions. There is substantial scientific evidence to support the hypothesis that the cannabinoids assist the human immune apparatus as modulators.

TLE provides luxurious uniqueness, supplying only the best quality by sustainable resources...

WHAT IS TLE ELITE CBD & CBG ORGANIC HEMP TINCTURE?

Our products have full spectrum Hemp oil which means that nothing has been removed from the process.

We haven't extracted certain cannabinoids like most other hemp oils. As we have chosen to keep these cannabinoids in our organic hemp oil, the benefits are far greater.

Scientific research has proven that the phytocannabinoids in the Hemp plant respond to our endocannabinoid system, reacting to our neuro transmitters CB1 and CB2 that are present in our central nervous system. These support our immune system.

These cannabinoids have been found to be beneficial not only to our physical being but to our mental health conditions. The cannabinoids infiltrate our system just like a waterfall and helps us readjust making us feel more balanced.

TLE ELITE ORGANIC HEMP PRODUCTS AND THEIR PROSPECTIVE USES

+ There is growing scientific evidence for the medicinal use of CBD to alleviate many conditions. For example:

- Cancer
- Epilepsy
- Arthritis
- Strokes
- Diabetes
- Eczema
- Insomnia
- Anxiety
- PTSD
- ADHD
- Parkinson's
- Chronic Pain
- Menstrual Pain
- To name a few.

Our unique formula retains all the plants qualities with enhanced CBG which is a powerful healing and anti aging cannabinoid.

The combination of taking CBD and CBG in a variety of ways can also have a profound effect on the benefits. This will enhance the body's ability to absorb the properties of the product more efficiently and therefore the results will also be increased. For this reason, we have developed a range of products that can be absorbed orally or topically.

Like any other food supplement we highly recommend you seek medical advice, if you are taking any other medication or you have any reaction after consumption.

A SIMPLE GUIDE TO TAKING CBD & CBG HOW TO START

Cannabinoids effect each and everyone differently therefore when taking any CBD based product for the first time it is better to start off in micro doses, this way you can monitor how your body responds. Depending on the reason you are using CBD is also a factor you must consider along with your age, height and weight.

WEEK 1	MORNING	LUNCHTIME	EVENING
DAY 1 to 3	ONE DROP	-	-

After day 3 on week one you can decide whether you feel you need to increase the dose of cbd accordingly.

WEEK 1	MORNING	LUNCHTIME	EVENING
DAY 4 to 7	ONE DROP	-	ONE DROP

Clinical studies are being carried out everyday to gather more research on the effects of the different cannabinoids on the body therefore it is vital that we try to be physically aware of how we are feeling. Its all about how your body responds to the cannabinoids as we are all unique.

Please do not hesitate to contact us directly through the website or by email If you have any questions or need some advice. Your feedback is of the utmost importance for not only our future product development but in terms of collective research for the whole industry....
